### ***Agenda***

9:00-9:15	Welcome and Introductions
9:15-9:45	“STATE” Impaired Driving Statistics/Summary
9:45-10:30	Introduction to Roadside Oral Fluid Screening
10:30-10:45	Break
10:45-11:30	The Science Behind Oral Fluid Testing
11:30-12:15	Policy Considerations and Legal Issues
12:15-1:15	Lunch
1:15-2:00	Roadside Testing – Perspectives from Law Enforcement
2:00-2:15	Break
2:15-3:00	SHSO implementation challenges and success story- What needs to be considered when setting up a program?

- 3:00-3:45 Breakouts (Break group into disciplines to develop implementation plans)  
Facilitated by instructors using NASID implementation checklist.
- A) SHSO - Draft state plan/policy/implementation considerations, data collection considerations, stakeholder group, training, MOU's, etc.
  - B) Law Enforcement -Develop law enforcement oral fluid SOP's/training
  - C) Toxicologists – Plan for increased requests for testing/potential to develop methods for evidential oral fluid testing if warranted/desired
  - D) TSRP/Judicial – Develop plan/curriculum to educate prosecutors and judges
- 3:45-4:15 Facilitated group discussion to describe what was discussed at each table
- 4:15-4:30 Wrap-up and closing to document next steps

NOTE: Visit <https://nasid.org/oral-fluid-working-group/> to access useful resources to assist your state in implementing a successful roadside oral fluid testing program.

NOTE: Agenda can be modified to meet the needs of a state.
